Introduction

The Michigan Almanac provides a consolidated source of data and commentary covering major activities of the University of Michigan Ann Arbor campus. This document includes sections on student admissions and enrollment, costs of attendance, student achievement, faculty and staff statistics, diversity indicators for all parts of the campus community, teaching and learning activities, research and technology transfer, budget, development, space, sustainability, and academic rankings.

The Almanac has been prepared with several different audiences in mind. Members of the University administration, faculty and staff who manage and monitor any of the institution’s programs should find this a useful source of information. Others who have interests in U-M – the state’s legislators and government officials in Lansing and Washington, prospective and current students and their families, donors, other higher education institutions, and the media – will also find information of value in this document.

Through the Almanac, the University aims to present a balanced and factual picture of all facets of the institution. The U-M applauds its successes, but also tries to be objective about areas that need improvement. The data has been collected from public sources, and, when possible, from readily accessible reports, so that the charts and tables in the Almanac can be replicated.

The U-M Health System is not presented in Almanac data and charts, except in a few instances. The University’s Flint and Dearborn campuses are also excluded from this document.

When relevant, the University is compared to its peer institutions, sometimes as individual universities or as groups of universities with similar characteristics. The membership of these peer comparison groups is listed in Appendix A.

This ninth edition of the Michigan Almanac was published in February 2017. Any chart that has been updated since the seventh edition (August 2016) is marked with a star: ✪.

Questions regarding the Almanac and its contents can be directed to michigan.almanac@umich.edu. The University of Michigan hopes that readers find the Almanac to be a valuable window into the institution’s characteristics and operations.
