(g) Teaching Load by Faculty Classification

Tenured and tenure-track faculty in most of the U-M Ann Arbor schools and colleges have a nominal 4-course teaching load. This is in addition to their effort for research, public service, student mentoring, curriculum development, administrative responsibilities and other activities.

Lecturers are unionized and their contract contains the following language related to teaching load:

Article XXVIII Workload

Section A. The Employer and the Union agree that at The University of Michigan the establishment of a universal workload standard for all academic units is a complicated matter, affected by the nature of the academic unit and its programs as well as other factors unique to that appointing academic unit and campus.

Section C. The academic unit may continue and/or establish course credit equivalencies as appropriate.

<i>Response rate</i>	<i>50%</i>	<i>56%</i>	<i>n/a</i>

The career offices within each undergraduate unit across campus survey each graduating class and reports its findings to the Office of Budget and Planning, which compiles the data for this report. Depending on the typical hiring patterns of employers in the field, data collection in some units begin prior to students' graduation, and most units complete their data collection within about nine months after spring commencement exercises.

Percentages represent the fraction of responding graduates who selected the category (not the fraction of the entire graduating class). Full-time employment includes self-employment, entrepreneurial endeavors, military service, and full-time service programs. Part-time employment includes those who are working part-time while seeking full-time jobs as well as those working part-time by choice. "Other" includes graduates who report their primary activity as looking for employment, deciding between offers, traveling, attending to family responsibilities, engaging in volunteer opportunities, and other activities.
