Participate in student organizations

54%

Perform community service & volunteer

29%

Have had an international experience

56%

Work while in school

57%

Have had an academic experience with a diversity focus

Students also shared open-ended comments about U-M...

"When I applied to U-M, I expected to join the Leaders and Best. I certainly did. The difficulty of classes, variety of student organizations, and diversity of students show me that I have joined top college students from around the world."

- LSA, First-year

"I expected more opportunities. I may need to explore more to find these opportunities, but I feel as though there are many more resources and opportunities that U-M offers that are not clearly communicated to the students."

- Nursing, Junior

"U-M was very generous with their financial aid package to my family so I have had little concerns about my accumulation of debt by the end of my college career."

- Engineering, First-year
