international  
experience

**54%**

Work while in  
school

### Students also commented about their U-M experience...

*"A Michigan education is one of the best in the country... There are tremendous faculty and students who are eager to teach and learn. There is a sense of pride in graduating from UM that the large alumni network dearly holds. However, the alumni do not relent upon graduation; they go on to do extraordinary things afterwards."*

- Sophomore, Ross School of Business

*"Especially after the Go Blue Guarantee, I feel as though college is affordable to individuals like myself."*

- Senior, LSA

*"Being an in-state student I feel that I receive a lot of financial assistance. Without this assistance I would not be able to attend this school so I am very grateful for that."*

- Senior, Engineering
